

# Where We Are Now

- Both organizations committed to serving discrete data in WQX format
- Established WQX community of practice
- Tools and code established around WQX
- USGS Water Data converting all discrete WQ data to WQX format
- Interagency Agreement between USGS and EPA
- Establishing Internet of Water structure in both agencies

# Where We Are Heading

- Continue serving discrete WQ data in WQX format
- Adding additional data products
- Looking towards modern
- Sensor data
  - Experience and data from
  - Desire to integrate with d
  - Desire to integrate with other types of discrete data
- Common Hydrography
